DEMOCRATIC NOMINEES.

For Congress—3rd District,
JENNING F. GRADY.

For Judge—6th District,
EDWIN T. BOYKIN.

For Solicitor—6th District,
OLIVER H. ALLEN.

CLINTON, N. C., OCT. 9, 1890.

Alphonse Daudet, the great French author, is said to be dying.

Our excellent contemporary, the Goldsboro Daily Argus, has just entered upon its twelfth semi-annual volume.

It is said that Wilmington has sold its street car system to a northern syndicate who will soon put on electric cars.

Some of our citizens say it snowed enough to cover the roofs of houses Sunday night about 11 o'clock.—Kinston Free Press. What! Snow in Kinston in September!

Because a Republican Postmaster was appointed to succeed a Democrat at Ore Hill, N. C., the patrons of the office boycotted it. The Post Office Department in revenge has discontinued the office.

The Mormons have at last decided that one wife at a time is enough for a man. At a general conference in Utah last Monday they sent forth an edict forbidding future polygamous marriages, in obedience to the law of the land.

The Messenger says the Rev. Sam Jones received \$2,000 for his services in Wilmington. The tabernacle will stand, and the great evangelist will return a year hence and feed the "goats and giraffes" in Wilmington again.

The celebrated Dupont Powder Mills at Wilmington, Delaware, were blown up Tuesday. Twelve men were killed and many houses wrecked. The shock was felt in Philadelphia 35 miles away.

The Radical party pledged itself to the people that if it got both Houses of Congress, it would repeal the Internal Revenue. But Congress has adjourned and it has done nothing of the kind. It has simply reduced the tax from 8 cents per lb. to 6 cents, at the same time making up for it a hundred times by increased taxes in the tariff bill.

The Meteorological Division of the Experiment Station in Bulletin 72a gives a list of the destructive tornadoes occurring in North Carolina for the sixty-five years from 1826 to 1890. The total number recorded is eighty-four. The greatest number in any one year was fifteen in 1884. The month of greatest frequency was April, fifteen occurring in that month. The greatest number recorded in a single day of the various years was seven, occurring on February 19th. The prevailing direction of storm movement has been northeast. From past experiences we may expect tornadoes and storms to occur more generally in the central portion of the State, in the month of April, and between three and five o'clock p. m. During the past twelve years, however, storms and tornadoes have occurred every year and in every month. A comforting reflection.

Recent dispatches state that England claims that the McKinley bill has been passed "with the avowed purpose of coercing Canada into separating from the British Empire and joining the United States. It is, therefore, in its nature an act of war on the British Empire to bring about its dismemberment." Col. Vincent, the noted advance agent of protection for British industry, says in substance that Great Britain cannot longer afford to throw her markets open to countries which place an embargo on British productions. Other European countries say they will be forced to retaliate upon the United States by discriminating against its products. Such is the result of Republican misqu-

ty. The McKinley tariff bill is a national disgrace and the people can not afford to allow a party that perpetrates such outrages upon them to remain in power. Such a party is only "fit for a cage and spoils."

AS DEMOCRATS SHOULD DO.

The Charleston News and Courier, after waging a bitter personal war on Tillman for months, is pleased to say, now that the nomination is made: "Captain Tillman is the duly accredited standard bearer of the party, and he will be the next Governor of South Carolina. The News and Courier will watch his public career with interest. While censuring him where he deserves to be criticised, it will not withhold from him the approval they shall honestly deserve. His official acts will be squared by his public prominence, and his administration will be judged by itself."

"A GOOD SELECTION."

Brother Blount, the gifted editor of the Wilson Mirror, has made thousands of men wish that they were as good and deserving as his big heart believes them to be. He has the following to say with reference to us and the Sampson Democracy:

Marion Butler, the accomplished editor of THE CLINTON CAUCASIAN, has been nominated for the Senate by the Democratic County Convention of Sampson county. Bro. Butler is a gentleman of broad culture and fine sense, and will make a useful and brilliant member, and reflect credit upon the noble county that has so worthily and conspicuously honored him.

Alliance Department.

ALLIANCE NOTES, DISCUSSIONS AND THE DOINGS OF THE VARIOUS LODGES.

State Business Agent W. H. Worth in a letter to the Alliance of the State says: "I hope no Alliance man will go back to the use of jute bagging this season, and cause us to have to fight over the jute trust again next year. We are assured that by next season we can have manufactured from our own cotton stalk fiber plenty of bagging equally as heavy and good or better than jute and at a less cost, but if the brethren go back to the use of jute, it may hinder or cause parties to hold back from putting up manufacturing establishments in our own State."

The members of the Alliance as a matter of principle as well as self-protection can not afford to use jute bagging at any price.

SAMPSON COUNTY ALLIANCE.

The Sampson county Farmers' Alliance was called to order in regularly quarterly session by President W. K. Pigford on Friday Oct. 3rd 1890 at 10:30 a. m. Prayer by Rev. J. O. Tew, Chaplain. Minutes of last meeting read and approved.

The following resolutions were offered, adopted by the Alliance:

Resolved, That the County Alliance pay W. J. Faircloth the sum of \$5.00 for services for the year 1890.

Whereas various slanderous reports have been circulated with reference to character and good name of Pres. L. L. P. Rk and chairman C. W. Macne, Resolved, That we have the utmost confidence in the integrity of brethren Folk and Macne and we denounce those who slander them.

Resolved, That the Sampson County Farmers' Alliance re-commend the brotherhood to use no jute bagging.

Much other business was transacted.

W. K. PIGFORD, Pres.
O. F. HERRING, Sec'y.

J. H. Young, a negro politician of Raleigh, has been appointed collector of the port at Wilmington, to succeed the late Capt. E. J. Pennypacker. The Messenger says:

"The news of Young's appointment has created much surprise and dissatisfaction among the leading Republicans of both races in Wilmington."

Later it is reported that Young's confirmation has been defeated and that Deputy Collector Taylor, a Wilmington negro, has been appointed.

A WHALE AT MOREHEAD CITY.

A whale was entangled in a large fish net at Morehead City last Friday night. The net would not pull in and the fishermen didn't know what to make of it. After awhile the net became slack and they pulled a lot of it in until they saw what at first they thought was a log; then they thought it was an immense shark. When it got near, all of a sudden it raised up above the water about eight feet and they saw it was a large whale. The fishermen were badly frightened, and a rope, connected with the net, became fastened around the ankle of Mr. Walter Guthrie. He caught hold of the boat, and the rope slipped off, only taking off the skin from his ankle. It was a close shave. The whale went off to sea, taking along part of the net.

It is supposed the whale was enclosed in the large net while asleep.—Kinston Free Press.

ADVERTISEMENTS.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, so though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—look three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."—GROUSE A. PAGE, Watertown, Mass.

Heartburn—distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, so though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. W. T. WILLIAMSON'S
BUGGY AND CARRIAGE FACTORY,
IN NEW QUARTERS ON FAYETTEVILLE ST.

30" Round Shaves, Hacks and all Edge Tools made, and Repairing done on short notice.

I will keep on hand a large lot of Western Buggies (open and top) and Road Carts. They will equal in quality and are sold as low as any like goods in Goldsboro, Fayetteville or Wilmington.

Respectfully,
W. T. WILLIAMSON.

JEWELRY AND CLOCKS!

I have just received a large lot of Elegant Jewelry. This I will guarantee to the purchaser to be just as represented. I sell no cheap, "fine goods" but carry a STANDARD LINE of GOLD FRONT GOODS. The attention of the ladies is called to the latest styles of BRACELETS—they are "things of beauty."

The old reliable and standard SETH THOMAS CLOCKS always in stock in various styles and sizes.

Repairing of Watches and Clocks and mending Jewelry is a specialty. All work I do is guaranteed to give entire satisfaction.

Respectfully,
G. T. RAWLS.

ARE YOU AN HEIR?

More than half a billion of dollars in unclaimed estates are awaiting the rightful heirs in England, Scotland, Wales and Ireland. Most of these heirs are in the United States, and have been advertised for in English papers. Thousands of heirs have never seen these advertisements. If your ancestors on your father's or mother's side came from any of the above named countries do not fail to write to E. Ross, European Claims Agency, 227 Grand St. New York, and ascertain if you are an heir.

NEW ADVERTISEMENTS.

CLINTON DRUG STORE.

[ESTABLISHED 13 YEARS.]

T. J. LEE - Manager.

NEVER MIND.

Never mind if your clothing is threadbare and your shoes are worn out. Never mind if your neighbors wonder and stare. Never mind if you don't choose to make known your motives and actions would trouble them less. If they would attend to their own affairs. If a man breaks no laws, what he eats, drinks and wears. In his own special business 'twould seem.

Never mind, let the world move along as it will. Life's chances are certain we know. And the man that's today at the top of the hill. May tomorrow be in the valley below. Live rightly, and slander and gossip will fall. To learn you, and soon you will find That the very best armor when it is all. Is to say from the heart "Never Mind."

THE WEEK

The latest happenings at Home and Abroad. Collected and Presented in terse and Readable Form.

Domestic Summary.

The New York Central Railroad has issued a circular to the heads of departments announcing that the management objects to the employment of Knights of Labor, and directing the circular to the heads of departments. The circular is signed by the General Manager, J. C. McQuinn, and is dated October 2, 1890.

AT THE NATIONAL CAPITAL.

The Week's Summary of Events at the Seat of Government.

The Adjournment of Congress.

The closing proceedings of Congress last week were not marked by any exciting events. The Senate passed up its work on the tariff conference bill, and passed the same by a vote of 32 yeas to 27 nays. The conference report on the deficiency bill was also agreed to. A number of minor bills and resolutions were acted upon, but the several bills which had been discussed at various times all failed of final action.

In the House.

In the House, the general deficiency bill was adopted, and the bill to relieve the builders of the granite Paved of penalties passed. The resolution concerning Postmaster Wheat, of the House, and declaring his office vacant, is reported by the committee on investigating, passed after a no debate. The remaining business was of a routine nature, and on the House informing the Senate of the readiness of the first session of the Fifty-first Congress was all cleared up and adjourned without delay.

Notes.

The new cruiser San Francisco has been accepted by the Navy Department. A highway robbery by a negro woman is the latest criminal incident in Washington.

It is proposed to set aside a part of Rock Creek Park as a country home for the President.

The total funded debt of the District of Columbia is \$19,533,100, a reduction of \$2,473,250 since 1878.

The conference of steel producers and shipbuilders at the Navy Department has been postponed until October 16.

Some idea of the mail handled at the Pension Office is given in the statement that last week nearly 55,000 letters were sent out, and about 75,000 were received.

In the year 1883, when Robert McCall, of Michigan, was Secretary of the Interior, there were exactly 12 clerks and one chief clerk on the regular rolls of the Pension Office.

The temporary force at that time was 89, each clerk receiving \$3,333 per day. The Pension Office now has 1,000 clerks, and a few days ago there were 185 promotions made in one day.

It is alleged that under the provisions of the revised statutes Mr. Wheat, the lately discharged postmaster of the House of Representatives, is liable to a fine and imprisonment.

The statutes prohibit, under heavy penalty and imprisonment, any officer or agent of the Government accepting any consideration for procuring or aiding to procure any Government contract.

A rumor is current that the Spanish government intends to enter into negotiations with the United States Government for the purchase of the Cuban and American products.

It is also reported that the government has instructed its agents abroad to notify the home authorities of any measures that may be taken by foreign governments in violation of the new United States tariff law.

Eleven bills which passed both houses failed to become laws because they did not receive the President's signature.

The most important of them is the bill for the relief of the assignees of John Roach, on a claim for extra allowances on the contract for the machinery of the United States steamship Porcia, amounting to \$61,752. The bill referred the claim to the committee on claims against the United States.

The President left Washington Monday for Galveston, Ill., to attend the reunion of his brigade on Wednesday.

Thursday he will visit the exposition at Ottumwa, Iowa, and take part in the exercises on "Soldiers' day." The next day he will be present at the veterans' celebration at Topeka, and that evening will visit his brother in Kansas City.
